

## **Water and Sanitation Africa (WSA), appoints WaterWays Solutions Ltd (WWS), as its representative in Israel and the first office out of Africa.**

Tel-Aviv, Israel, 23 October 2013, WATEC 2013,

WSA announced the appointment of WaterWays Solutions Ltd, as their representative in Israel. WSA is a Pan African agency with 32 member states, 20 offices around Africa, with the first office out of Africa opening today in Israel.

Mr. Idrissa Doucouré, CEO of WSA, visiting the conference stated, Africa is on the verge of a revolution in the field of water and sanitation, this cooperation will allow important partnerships between African governments and water utilities with Israeli technological companies and investors. Israel has reached a surplus of water for the first time ever, due to their innovative water management and water technology and Africa has the chance to share and enjoy from this wealth of knowledge and experience.

WSA currently has 66 projects in its pipeline from 32 countries worth US\$4.5 billion. These projects are in need of both technical and financial solutions.

Ms. Ornit Avidar founder and managing director of WaterWays Solutions said, Water and sanitation is the top priority of African governments and we are privileged to be able to take part in this revolution through the cooperation with WSA and their visionary mindset and operations.

**WSA – Water and Sanitation Africa** - [www.wsafrica.org](http://www.wsafrica.org)

WSA is a Pan African Intergovernmental African institution devoted to increasing accelerated access to water and sanitation for vulnerable populations in Africa; with a vision of ‘Water and Sanitation for all, forever in a prosperous Africa’. In order to deliver this vision, WSA is working in strategic partnerships with other Organizations, institutions and agencies working towards a similar goal, directly or as part of a broader mandate.
